## PROFILE

---

First-year Information Management student at NOVA IMS with hands-on experience in data analytics, frontend development, and innovation-driven projects. Active researcher in a university entrepreneurship club and participant in an applied AI challenge addressing real-world accessibility problems. Motivated by building things that matter at the intersection of technology and human impact.

## SKILLS

---

- Data Analysis
- Python
- SQL
- Power BI
- Excel (Advanced)
- R
- Data Visualization
- Product Thinking
- BI Reporting

## PROJECTS

---

### HummingBird | Lisbon

April, 2026 - Present

Personal Project

- Co-developing a mobile app with a unique alarm mechanism that only deactivates when the user successfully hums or sings back a generated melody, requiring active cognitive engagement
- Leading product design and frontend implementation, applying principles of user experience and behavioural psychology to a consumer-facing tool

### Sales Analytics Dashboard | Lisbon

April, 2026

Applied Academic Project

- Built an interactive Excel dashboard using pivot tables, dynamic charts, and data segmentation to transform raw transactional records into executive-ready reporting
- Delivered a solution a decision-maker could act on immediately, with no technical knowledge required to navigate the output

## **Data Professional Survey Dashboard | Lisbon**

*March, 2026*

*Applied Academic Project*

- Worked with a real dataset of 630 data professionals, performing data cleaning in Power Query and building an interactive Power BI dashboard
- Visualised salary trends, career satisfaction levels, and programming language preferences across roles and countries using bar charts, treemaps, and gauge charts

## **PROFESSIONAL EXPERIENCE**

---

### **NOVAe**

**Lisbon, Portugal**

Research & Development Associate

*March, 2026 – Present*

- Designed and developed NOVAe's website, improving user experience and accessibility of information for the student and startup community
- Conducted weekly research on entrepreneurship and innovation trends to curate content for the newsletter, supporting consistent audience engagement and knowledge sharing

## **EDUCATION**

---

### **NOVA Information Management School**

*September, 2025 - July, 2028*

*Bachelor of Science in Information Management*
